

COMPARISON TABLE

SERVICE: BUSINESS TRAVEL ESIM & SIM SOLUTIONS

	Consumer Travel eSIMs	Mobile Operators Plans	Telecom26 Business SIMs
Coverage	Limited to purchased country/region	~70% of world, tied to operator footprint	Up to 200 countries with consistent quality
Contract	One-off purchase	Annual contracts	3 Flexible monthly rolling
Lifecycle	Expires after bundle	Active only during contract	Dormant between trips, reactivated on demand
Bundles	Per trip, per device	Separate limits per subscription	Shared global data pools across users
Management	Minimal or none	Fragmented portals	Centralized portal with full SIM visibility & controls
eSIM Reuse	Not possible	Not possible	Reassignable & reusable
Data Security	Resold via unknown providers	Routed via operator's core	Routed through Telecom26 secure backbone
Support	Limited, reseller dependent	Local desks	Dedicated global B2B support
Invoicing	Employees expense individually	Multiple local accounts	One global invoice
Redundancy	None	Limited	Multi-profile redundancy per SIM
Flexibility/Scale	Individual use only	Rigid, costly to scale	Seamless scalability, pooled data
Service Continuity	No roaming guarantee	Dependent on roaming partners	Optimized global routing for seamless handover
Cost Predictability	Pay-per-trip, can spike	Flat but inflexible	Shared pools = predictable, optimized costs
Device Support	Phones/tablets only	Mostly phones	Phones, tablets, laptops, routers, IoT
